Course Description	Offerings				
	September	October	November	December	
I. Instructional Support Strategies					
Autism in Schools: A Toolbox of Strategies and Techniques That Work This session is a brief overview of strategies, techniques and tools to use with students on the autism spectrum.		10/11/11 3:45-4:45pm MS Library Michelle DeGraff			
Book Study: Working with Parents by Dr. Ruby Payne How do you build communication with parents? Are we even speaking the same language? Discuss Dr. Ruby Payne's work and begin to look at the mindsets of different economic classes in order to be effective in communicating with parents of your students. Leave with a collection of tips and helpful hints for working with parents from different socioeconomic classes in order to build relationships for student success.		10/20/11 <u>AND</u> 11/3/11 3:45-4:45pm MS Library Becky Wager			
Online Links and Resources Come and see what sites are available to us, our students and/or our families. Staff members are invited to explore these websites that are available at our finger tips (<u>math links and resources will be highlighted, but all content areas are welcome</u>). This will be a working session that you will be able to walk away with resources that you can begin using tomorrow.				12/1/11 3:45-4:45pm HS Lab 123 Becky Wager	

II. Curriculum & Instruction				
<p>Make 'n Take: Math Games Enjoy an afternoon of creating a variety of math games for all ages preK-6. Participants will walk away with new and novel ideas to reinforce and enrich student learning in the Math arena. Materials will be provided for several activities to use in centers and small group instruction.</p>	<p>9/29/11 3:45-4:45pm Way. Elem. – Art Room #67 Juli Severson & Susan DeMuth</p>			
<p>SMART Board Interactive Lesson Development You have been trained, but would like some follow-up guidance? Do you have some great ideas, but never enough time to create that lesson that you dream about? Come and have a solid block of time, with a Teq trainer to assist, to develop your own interactive lesson(s). Focusing attention on the lesson, not the technology, you'll explore innovative and engaging lesson ideas for a specific grade and subject area of your choice in order to begin using the very next day. Maximum enrollment of 15.</p>			<p>11/7/11 3:30-6:30pm HS Lab, room 123 Tim Hodkinson, Teq., Inc.</p>	
<p>Using UbD Here's an opportunity to begin/continue your curriculum writing work using the Understanding by Design (UbD) model. Have an hour to be able to create that unit that you always wanted to or revise an existing document as you reflect on this backward design approach and its connection to your instruction.</p>			<p>11/15/11 3:45-4:45pm MS Library Becky Wager</p>	
III. Technology				
<p>Webpage Intro. Learn the basic skills for creating pages, logging in, hyperlinks, using clip art, photos, PDF's and other basic skills. You will not leave with a web page complete, but will have the basic knowledge to set-up your page and get to work.</p>	<p>9/19/11 3:30-5:30pm MS Computer Lab Melonie Coley</p>			

<p>Microsoft Word 2010 Ribbon interface, Ribbon tabs, Command group, Quick access toolbar, Backstage....UGH!!!! Come and learn about changes made to Office 2010. Add commands to the quick access toolbar; learn how to create your own ribbon tab and leave knowing how to better maneuver within Microsoft Word 2010.</p>	<p>9/21/11 3:45-4:45pm MS Computer Lab Jacque Henty</p>			
<p>SMART Response/Senteo Training Use Smart Response software and handheld wireless remotes (clickers) and learn how to set-up teacher tools, class lists, create assessments, run assessments and export data for data analysis all with the ease of your Smart Board. Maximum enrollment of 15.</p>	<p>9/27/11 3:30-6:30pm HS room 258 Jay Wanek, Teq, Inc.</p>			
<p>SMART Notebook Math Tools Expand the capabilities of your SMART Notebook Software with math specific tools and features. Learn how to integrate SMART Notebook Math Tools into your Smart Board lessons. Maximum enrollment of 15.</p>		<p>10/5/11 3:45-4:45pm HS Lab, room 123 Jay Wanek, Teq, Inc.</p>		
<p>Microsoft Excel 2010 – Basics You got data? Want to know how to track it easily? Come and learn what Excel 2010 has to offer. All user types are welcome – if you are already using Excel come and learn how Excel has changed or come if you are a new user to Excel. All will leave knowing the basics of how to use Excel 2010.</p>		<p>10/12/11 3:45-4:45pm MS Computer Lab Jacque Henty</p>		
<p>Integrating Rich Media Learn to find, import and integrate rich media into your SMART Notebook lessons. Add to your gallery and embed flash, video, sound and animated .gif to your interactive lessons. Maximum enrollment of 15.</p>		<p>10/20/11 3:45-4:45pm HS Lab, room 123 Tim Hodkinson, Teq., Inc.</p>		

<p>SMART Board Training: Beyond the Basics Learn tips and tricks for enhancing SMART Notebook lessons now that you have had time to use your board and the software. Learn such things as exporting Notebook lessons to a classroom/teacher web page, how to incorporate a transparent background and how to do advance searches, among others in order to learn how to use your SMART Board for more than just the basics. Maximum enrollment of 15.</p>		<p>10/25/11 3:45-4:45pm HS Lab, room 123 Jay Wanek, Teq., Inc.</p>		
<p>Webpage Design & Support Whether a newcomer or current web page host, consider attending these sessions for further development and support. There will be “cheat sheets,” design and helpful hints hand-outs available as well as individual support for those who have taken the introduction course (September 19th) or a prior intro. course. Come to one session or all 4 sessions and have time to work at your pace and receive 1:1 support to get your page up and running.</p>	<p>9/26/11 3:30-5:30pm MS Computer Lab Melonie Coley</p>	<p>10/24/11 3:30-5:30pm MS Computer Lab Melonie Coley</p>	<p>11/21/11 3:30-5:30pm MS Computer Lab Melonie Coley</p>	<p>12/12/11 3:30-5:30pm MS Computer Lab Melonie Coley</p>
